**SECTION B: MANDATORY REQUIREMENTS**

*Does the facility offer any of the following service? Yes -2, Partial - 1, No – 0*

	YES	PARTIAL	NO	REMARKS
1. Offers both comprehensive specialised and super/sub specialised services in all major disciplines of medicine and dentistry <b>(2Marks)</b>				
2. Separate OPD and Accidents and Emergency Department <b>(2Marks)</b>				
3. At least 4 functional theatres (General theatre, Maternity, Cold case, Ophthalmic) <b>(2Marks)</b>				
4. At least 1 minor theatre <b>(2Marks)</b>				
5. Radiotherapy <b>(2Marks)</b>				
6. Radiotherapy isotope scanning and chemotherapy <b>(2Marks)</b>				
7. Oncology wards for adults and paediatrics <b>(2Marks)</b>				
8. Assisted reproduction in vitro fertilization (IVF) <b>(2Marks)</b>				
9. Organ transplant (liver and kidney) <b>(2Marks)</b>				
10. Burns Unit adult and Paediatric <b>(2Marks)</b>				
11. High dependency unit with twelve (12) beds (adult, paediatrics and neonatal); <b>(2Marks)</b>				
Each bed should have;				
a) A patient monitor				
b) Oxygen source preferably

piped				
c) An infusion pump				
d) Portable light source				
e) A ripple mattress				
In addition to these the HDU should have				
a. A nursing station				
b. Changing rooms				
c. Blood gas analyser				
d. Emergency trolley (Intubation set and AED)				
12. ICU with twelve (12) beds(adult, paediatric and neonatal); <b>(2Marks)</b>				
Each bed should have;				
a) A multichannel patient monitor;				
b) A ventilator;				
c) An infusion pump				
d) Oxygen source preferably piped				
e) Portable light source				
f) A ripple mattress				
g) Piped oxygen supply				
h) Continuous Positive Airway Pressure (CPAP) machine				
In addition to these the ICU should have				
a) A nursing station				
b) Changing rooms				
c) Blood gas analyser				
13. Laboratory class F and

ix. Pulse oximeter				
x. Thermometer(accessible)				
xi. Weigh scale (accessible)				
xii. Foot stepper				
xiii. Examination light				
xiv. Diagnostic set				
xv. Pen torch				
xvi. Privacy screen				
3. At least two (2) treatment room each with: <b>(2Marks)</b>				
a) Observation couch covered with a mackintosh				
b) Foot stepper/step stool				
c) Oxygen cylinder and flowmeter/ oxygen concentrator				
d) Functional portable examination light				
e) Handwash basin with running water and soap				
f) Privacy screen if required				
g) Drip stand				
h) Nebulizer				
4. Procedure room each with: <b>(2Marks)</b>				
a) Examination couch – covered with a mackintosh				
b) Surgical set as per specialty				
c) Oxygen cylinder and flowmeter/ oxygen concentrator				
d) Foot stepper				
e) Drip stand				
f) Colour coded Pedal bins with corresponding bin liners. i. Black ii. Yellow iii. Red

g) Sharps Safety Box				
h) Color coded decontamination buckets				
i) Cabinets or shelves				
j) Procedure trolley				
k) Suction machine				
<b>5. Triage room each with: (2Marks)</b>				
a) Table				
b) Chairs				
c) Adult/pediatric weighing scale				
d) stadiometer				
e) Blood pressure machine				
f) Pulse oximeter				
g) Thermometer				
h) MUAC tape				
i) Handwash basin with running water and soap				
j) Glucometer				
k) Colour coded Pedal bins with corresponding bin liners. i. Black ii. Yellow iii. Red				
l) Sharps safety Box				
<b>6. Accident and Emergency department with: (2Marks)</b>				
a) Ambulance Bay				
b) Receiving area				
c) Resuscitation area				
d) Acute Treatment area				
e) Triage area				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

f) Nursing station				
g) Portable X-ray machine				
h) Continuous Positive Airway Pressure (CPAP) machine				
i) Trolley Bay				
j) Cloak room				
k) Store for consumables				
l) Observation couch with mackintosh cover				
m) Foot Stepper/ step stool				
n) Oxygen source: oxygen cylinder and flow meter/ oxygen concentrator/ piped oxygen				
o) Suction machine				
p) Emergency tray <b>MUST</b> have adult and paediatric intubation set				
q) Nebulizer				
r) Automated External Defibrillator				
s) Examination light				
t) Handwash basin with running water and soap				
u) Client waiting area				
7. Inpatient services with at least 400 beds <b>(2Marks)</b>				
a) Medical ward: male and female				
b) Surgical ward: male, female, paediatric,				
c) Orthopaedic ward: male, female, paediatric				
d) Burns unit: male, female, paediatric				
e) Paediatric ward				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

f) Obs/gyn: maternity, gynaecology, gyn-oncology, kangaroo mother care				
g) Oncology: male, female, paediatric				
h) Isolation ward for infectious diseases-male, female, paediatric				
i) Psychiatry ward: male, female and paediatric				
8. Inpatient with separate wards for various speciality departments with: <b>(2Marks)</b>				
a) Nursing Station				
b) Treatment room				
c) Drug cabinet				
d) Sluice room				
e) Ablution services				
f) Covered patient walkways				
9. Dental unit with at least 10 functional dental chairs <b>(2Marks)</b>				
10. Drug store for pharmaceutical and non-pharmaceutical <b>(2Marks)</b>				
a) Shelves and pallets				
b) Security				
c) Lockable cabinets				
d) DDA cabinets				
e) Secure, Damp proof and well-ventilated stores				
f) Hand wash basin with running

equipment				
i. sluice room				
ii. receiving bay				
iii. recovery area				
iv. patient monitoring equipment				
v. oxygen source for both mothers and baby				
vi. functional resuscitators				
vii. suction machine				
viii. Functional Ventilators				
ix. theatre light				
x. scrubbing sink with running water and soap				
xi. Emergency trolley Should include PPE/PPH kit				
xii. theatre bed				
xiii. shelf or cabinet for sterile				
xiv. surgical instruments including:				
i). Caesarean Section Set				
ii). Laparotomy Set				
b) At least 1 general emergency theatres with the relevant equipment				
c) At least 1 general elective fitted with a laparoscopy tower;				
d) At least 1 ophthalmology theatre with the relevant equipment				
e) At least 1 dental theatre with the relevant equipment				
14. At least five functional theatres and should include: <b>(2Marks)</b>				
a) Receiving area				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

b) Pre-operative area				
c) Post-operative area				
d) Oxygen source (Piped and Cylinder)				
e) Anaesthetic machine				
f) Scrubbing area				
g) Changing rooms for both male and female				
h) Sluice room				
i) Store for Linen				
15. Radiological and imaging unit with a separate reporting room: <b>(2Marks)</b>				
a) X-ray (including at least 1 portable)				
b) Image intensifier				
c) Fluoroscopy				
d) Mammography				
e) CT scan				
f) Ultrasound (including 3D and doppler)				
g) MRI				
h) OPG				
i) IOPA				
j) Radionuclide scan				
k) PET scan				
16. Specialist clinics <b>(2Marks)</b>				
a) Paediatrics				
b) Internal medicine				
c) Cardiology				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

d) Neurology				
e) Nephrology				
f) Endocrinology				
g) Rheumatology				
h) Allergy/ immunology				
i) Chest clinic				
j) Gastroenterology-medical and surgical				
k) Gynaecology				
l) Fertility				
m) Gynae-oncology				
n) High risk obstetrics				
o) General surgical				
p) Orthopaedic – including club foot clinic				
q) ENT				
r) Plastic and reconstructive surgical				
s) Cardiothoracic and vascular				
t) Urology				
u) Ophthalmology				
v) Oncology – medical and surgical				
w) Mental health				
x) Dermatology				
y) TB, HIV/AIDS and chronic illness				
z) Periodontology				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

aa) Maxillofacial				
bb) Restorative /aesthetic				
cc) Orthodontic				
<b>17. Renal dialysis unit (2Marks)</b>				
a) Consultation/observation/ treatment room				
b) Recliner chairs/dialysis beds (at least 10 beds)				
c) Dialysis machine (1 machine per dialysis bed)				
d) 1 dialysis machine Isolated for Hepatitis B, C and HIV patients each				
e) Dialysis arrow water plant room				
f) Oxygen source (piped, cylinders)				
g) ECG machine				
h) Suction machine				
i) Store for consumables				
j) Changing area for staff				
k) Portable defibrillator (AED)				
l) Emergency tray				
m) Bag-valve-mask of at least 4 different sizes				
n) A functioning laryngoscope				
o) Endotracheal tubes				
p) Hand wash basin with running water and soap				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

q) Nursing station				
r) Renal medication				
s) Consumables for haemodialysis				
t) Data management system				
18. Endoscopy and colonoscopy unit with: <b>(2Marks)</b>				
a) Endoscopy tower				
b) Anaesthetic machine				
c) Emergency trolley				
19. Each department should have: - <b>(2Marks)</b>				
a) A registration area;				
b) A triage;				
c) A waiting area with adequate space.				
d) At least two (2) consulting rooms;				
e) An observation room;				
f) A procedure room				
20. An orthopaedic trauma unit; <b>(2Marks)</b>				
21. An orthopaedic technology workshop; <b>(2Marks)</b>				
22. At least one (1) minor theatre <b>(2Marks)</b>				
23. One ENT services room <b>(2Marks)</b>				
24. Maternity ward with: - <b>(2Marks)</b>				
a) Nursing station				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

b) Office				
c) Antenatal ward				
d) Postnatal ward				
e) Post-caesarean ward				
f) Procedure room				
g) Treatment room				
h) Six (6) bed HDU dedicated to maternity				
Labour/Delivery room with:				
a) At least 6 delivery couches covered with mackintosh				
b) Privacy screens				
c) Portable examination lamps				
d) Drip stands				
e) Step stools				
f) Two (2) functional resusitaires				
g) Oxygen source (cylinder with flowmeter, concentrator, piped)				
h) Fully equipped emergency tray/trolley including PPH kit and PET kit/ delivery sets;				
i) Shelf/cabinet for consumables				
j) Functional drainage system				
k) Sluice room				
l) Bathroom and toilet with non-slip tiles				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

25. New-born unit with: <b>(2Marks)</b>				
a) Cots				
b) Incubators				
c) Phototherapy machine				
d) Mothers' room for expressing milk				
e) Kitchenette				
f) Changing room				
26. One high dependency unit with at least six (6) cots; <b>(2Marks)</b>				
27. ICU with twelve (12) beds (adult, paediatric and neonatal); Each bed should have; <b>(2Marks)</b>				
a) A multichannel patient monitor;				
b) A ventilator;				
c) An infusion pump				
d) Oxygen source preferably piped				
e) Portable light source				
f) A ripple mattress				
g) Piped oxygen supply				
h) Continuous Positive Airway Pressure (CPAP) machine				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

In addition to these the ICU should have				
a) A nursing station				
b) Changing rooms				
c) Blood gas analyser				
28. On call rooms for each inpatient wards <b>(2Marks)</b>				
a) Well ventilated				
b) Male and female				
c) Washrooms				
d) Shower				
e) Table				
f) Chair				
g) Good lighting				
29. Mortuary capacity should be at least 10% of the inpatient capacity <b>(2Marks)</b>				
30. At least 4 ACLS ambulances and one of which should be four-wheel <b>(2Marks)</b>				
31. Medical engineering unit <b>(2Marks)</b>				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

32. Resource center: <b>(2Marks)</b>				
a) Measuring at least 10 by 15 ft				
b) Seating capacity of 20				
c) At least one full time librarian				
d) Accessibility to the Learning Resource Centre (LRC)				
e) Adequate lighting and ventilation				
f) Adequate study area				
g) Access to computer and internet				
h) Access to washrooms				
33. Disability-friendly infrastructure; <b>(2Marks)</b>				
a) Ramp (25°-30° incline with rails on both sides, non-slip floor)				
b) Lifts dedicated for patient use.				
c) Accessible washrooms				
34. Administration unit with: <b>(2Marks)</b>				
a) A reception				
b) One cash office				
c) At least two stores				
d) Administration offices as required				
e) One room for health records				
35. Kitchen; <b>(2Marks)</b>				
a) Receiving area				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

b) Store for dry ration				
c) Store for perishable items				
d) Freezer				
e) Cateresses office				
f) Central cooking area				
g) Serving area				
h) Cooking area fitted with a Chimney hood and cooking pots				
i) Vegetable preparation area				
j) Crockery area				
k) Good drainage				
l) Running water at different point				
m) Food trolleys				
n) Washing area				
o) Gas cookers				
p) LPG area where gas cylinders are kept outside the main kitchen area in a secure and well- ventilated compartment				
q) Meat preparation area				
r) Male and female toilets				
s) A waste segregation area				
<b>36. Laundry with: (2Marks)</b>				
a) Segregated wet and dry processes and clean and dirty processes				
b) Running water				
c) Washing machine/dobi sink				
d) Ironing area				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

e) Store for supplies				
f) Safety equipment i.e. safety boots and heavy gauge/duty gloves				
37. One public health office <b>(2Marks)</b>				
38. Staff quarters <b>(2Marks)</b>				
39. Ablution block; <b>(2Marks)</b>				
a) 1 toilet and 1 bathroom for every 6 inpatient per gender;				
b) Toilets in each service department in each floor;				
c) Staff toilet and bathroom at least 1 for each 6 staff per gender				
40. Power supply <b>(2Marks)</b>				
a) Electricity (main supply)				
b) Back-up power supply				
c) Automatic power generator minimum capacity 250 kVA				
41. Biomedical engineering equipment <b>(2Marks)</b>				
42. Physiotherapy and occupational therapy infrastructure and equipment. <b>(2Marks)</b>				
43. Water storage capacity with a minimum of 100,000 litres <b>(2Marks)</b>				
44. Waste management system (NEMA Approved) which may include incinerator, microwave, compost pit, placenta pit/macerator, OR Valid service contract with NEMA				

**LEVEL 6A**  
**CHECKLIST FOR THE CATEGORIZATION OF FACILITIES**

Approved medical waste disposal company (2Marks)				
45. Security systems (2Marks)				
a) CCTV with a backup system				
b) Secure fence and gate				
c) Alarm system
